Fabric Folding Machines / BFM

The B-Tex Folding machine BFM is a highly efficient tool for folding the fabric with care. Original length and width is always maintained. Folding reduces transportation and increases production.

BFM is design with double drive, which are synchronised with dancing roller and ensure tensionless fabric Lapping/Rolling.

BFM can be supplied with highly accurate electronic length counter meter with presets. It stops the machine automatically at desired length meters for cutting and packing.

Lapping on Strawboard

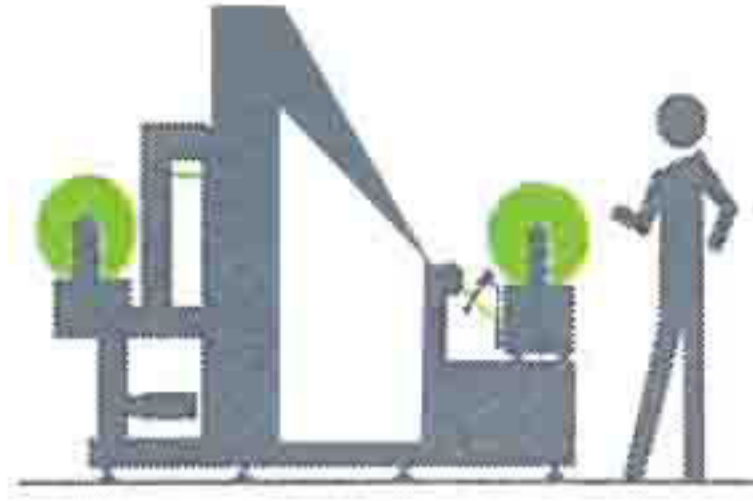

Lapping Line
